

# Enhancing PRODUCTIVITY

## TWO ADD-ON TOOLS TO ENHANCE YOUR ERP

**Single Source Systems Productivity Tools address some of the most common issues that Acumatica users face day-to-day.**

**Agreement Designer.** We make it faster and easier to create contracts, proposals, work orders, or any document that usually starts from a template. Embed legal, contractual, or any text with data fields automatically pulled from select Acumatica documents. Create legal content once and re-use it multiple times with convenient templates. Customize the template to fit the requirements of each unique transaction.

Anyone that works with contracts, service agreements, purchase orders, proposals, bids, sales plans, or internal hiring or policy documents will appreciate this time-saving tool.

**Questionnaire Designer.** We streamline checklists and inspections. Any time a list of questions is needed to capture data, it can be done with the Questionnaire Designer. Group and sequence questions then assemble into re-useable templates. The solution automatically renders questions based on embedded data from within Acumatica, saving time and reducing errors.

Every department in the organization uses some kind of checklist and will find this tool helpful.

WHAT DOES

High  
VALUE

Low  
RISK

MEAN FOR YOU?

Single Source Systems has worked closely with organizations like yours for nearly 40 years, helping to optimize processes through add-on productivity tools. We have expertise you can trust.

We've created a bundle of two high-value, low-risk solutions that will significantly impact your productivity. Agreement Designer and Questionnaire Designer streamline tedious tasks, like language for contracts and creating checklists for collecting data.

**High Value.** Your workforce deserves tools to help them do their job faster and with fewer hassles. Time savings yield cost savings.

You'll appreciate the improved accuracy and consistency too. Everyone wins.

**Low Risk.** Because the solutions are affordably priced, the risk is very low. The tools are easy to deploy. They seamlessly integrate into your Acumatica ERP. Subscription pricing means a manageable operational expense that's easy to budget.

Users need minimal training. We'll help you get started on the path to achieving ROI.
